

**Curriculum Vitae**  
**William Xiang Quan Ngiam**

Department of Psychology  
 Biopsychological Research Building  
 University of Chicago  
 United States  
[wngiam@uchicago.edu](mailto:wngiam@uchicago.edu)

**Employment**

2019 – present      **Postdoctoral Research Fellow**  
 University of Chicago (with Professor Edward Awh and Professor Edward Vogel)

**Education**

2015 – 2019      **Doctor of Philosophy** in Psychology  
 University of Sydney (Supervisor: Professor Alex Holcombe)  
 2011 – 2014      **Bachelor of Psychology (Honours)**  
 University of Sydney (Supervisor: Dr Patrick Goodbourn)

**Teaching and Professional Experience****Research**

2017      **Statistical Assistant/Programmer** on University of Sydney Strategic Education Grant/Educational Innovation Grant; *Using interactive learning to integrate statistical theory with contemporary research practices*  
 2017 – 2018      **Research Assistant** on University of Sydney Faculty of Science/Seed Funding; *The development of attentional control in children with and without anxiety*

**Teaching**

Summer 2018      **Lecturer** for Science and Statistics in Psychology - Introduction to Psychology (PSYC1001), *University of Sydney*  
 2015 – 2018      **Teaching Assistant** for Statistics and Research Methods for Psychology (PSYC2012), *University of Sydney*  
 2015, 2017      **Teaching Assistant** for Advanced Statistics for Psychology (PSYC3010), *University of Sydney*  
 2016      **Teaching Assistant** for Research Methods in Honours Psychology, *University of Sydney*

**Miscellaneous**

2020 – present      **Founder and Organizer** of the University of Chicago ReproducibiliTea Journal Club  
 2021 – present      **Steering Committee** member of ReproducibiliTea

**Honours and Awards**

2015 – 2019      *Australian Government Department of Education and Training* – Research Training Program (RTP)  
Scholarship to undertake a research doctorate degree, formerly known as the Australian Postgraduate Award (APA).  
 2015 – 2019      *University of Sydney* – Merit Award  
Top-up scholarship to undertake a research doctorate degree.  
 2017      *University of Sydney* – PsychFEST Award  
Awarded for an excellent presentation in the School of Psychology's PsychFEST.  
 2016      *Australian Government Department of Education and Training* – Endeavour Research Fellowship  
Competitive, merit-based scholarship to undertake study and research overseas.  
 2014      *Australian Psychological Society* – APS Prize  
Awarded for being the top performing student in fourth year psychology (Honours).

**Publications**

**Ngiam, W.X.Q.**, Adam, K.C.S., Quirk, C., Vogel, E.K., Awh, E. (accepted). Estimating the statistical power to detect set size effects in contralateral delay activity. *Psychophysiology*

**Ngiam, W.X.Q.**, Brissenden, J.A., Awh, E. (2019) "Memory compression" effects in visual working memory are contingent on explicit long-term memory. *Journal of Experimental Psychology: General*, 148(8), 1373.

<http://dx.doi.org/10.1037/xge0000649>

**Ngiam, W.X.Q.**, Khaw, K.L.C., Holcombe, A.O., Goodbourn, P.T. (2019). Visual working memory for letters varies with familiarity but not complexity. *Journal of Experimental Psychology: Learning, Memory and Cognition*, 45(10), 1761-1775. <http://dx.doi.org/10.1037/xlm0000682>

Goodbourn, P.T., Livesey, E.J., **Ngiam, W.X.Q.**, Holcombe, A.O., Forte, J.D. (in prep.). Learning new symbolic representations of number.

Bateman, J.E., Birney, D. P., **Ngiam, W.X.Q.** (2018). Relational encoding in visual working memory: Change detection performance is better for violations in group relations. *PLOS ONE* 13(9): e0203848.

<https://doi.org/10.1371/journal.pone.0203848>

**Talks**

**Ngiam, W.X.Q.**, Adam, K.C.S., Quirk, C.T., Vogel, E.K., Awh, E. (2020, June). Power for detecting the presence of set size differences in the contralateral delay activity. *Virtual Working Memory Symposium*.

**Ngiam, W.X.Q.**, Khaw, K.L.C., Holcombe, A.O., Goodbourn, P.T. (2018, April). Training recognition familiarity does not improve visual working memory performance. *45<sup>th</sup> Annual Conference of the Australasian Society for Experimental Psychology*, Hobart, Australia.

**Ngiam, W.X.Q.**, Brissenden, J.A., Awh, E. (2017, April). Enhancing visual working memory performance using statistical regularities requires explicit awareness. *44<sup>th</sup> Annual Conference of the Australasian Society for Experimental Psychology*, Newcastle, Australia.

**Posters**

**Ngiam, W.X.Q.**, Loetscher, K., Vogel, E.K., Awh, E. (2020, November). Item-based storage limits revealed by whole-report for dual-feature stimuli. *61<sup>st</sup> Annual Meeting of the Psychonomic Society*, online.

**Ngiam, W.X.Q.**, Adam, K.C.S., Quirk, C., Vogel, E.K., Awh, E. (2020, November). Estimating the statistical power to detect set-size effects in the contralateral delay activity. *Object, Perception, Attention and Memory*, online.

**Ngiam, W.X.Q.**, Loetscher, K., Vogel, E.K., Awh, E. (2020, May). Object-based memories revealed by whole-report for dual-feature stimuli. *20<sup>th</sup> Annual Meeting of the Vision Sciences Society*, online.

**Ngiam, W.X.Q.**, Brissenden, J.A., Awh, E. (2019, November). "Memory compression" effects in visual working memory are contingent on explicit long-term memory. *60<sup>th</sup> Annual Meeting of the Psychonomic Society*, Montreal, Canada.

**Ngiam, W.X.Q.**, Awh, E., Holcombe, A. O. (2019, May). Examining the effects of memory compression with contralateral delay activity. *19<sup>th</sup> Annual Meeting of the Vision Sciences Society*, Florida, United States.

**Ngiam, W.X.Q.**, Khaw, K.L.C., Holcombe, A. O., Goodbourn, P.T. (2018, November). Training recognition familiarity is insufficient to improve visual working memory. *59<sup>th</sup> Annual Meeting of the Psychonomic Society*, New Orleans, United States.

**Ngiam, W.X.Q.**, Brissenden, J.A., Awh, E. (2017, May). Memory compression using statistical regularities requires explicit awareness. *17<sup>th</sup> Annual Meeting of the Vision Sciences Society*, Florida, United States.

**Ngiam, W.X.Q.**, Goodbourn, P.T. (2016, November). Familiarity, but not visual complexity, affects letter encoding in visual working memory. *57<sup>th</sup> Annual Meeting of the Psychonomic Society*, Boston, United States.

**Ngiam, W.X.Q.**, Goodbourn, P.T. (2015, April). Encoding and capacity limits of visual working memory are not set by stimulus complexity. *42<sup>nd</sup> Annual Conference of the Australasian Society for Experimental Psychology*, Sydney, Australia.
